

# Increase Your Bottom Line With End-to-End Procurement Outsourcing

Procurement Outsourcing Services by NTT DATA

## Stay one step ahead of the competition

With our access to category insights and supplier relationships, technology capabilities and highly automated transaction support and process delivery functions, Procurement Outsourcing Services by NTT DATA can help:

- Enable you to focus on core categories and competencies
- Provide greater spending control
- Improve service levels and business relationships
- Maintain support staff, processes and tools for non-core functions

Using our internal infrastructure, we are able to provide procurement outsourcing services globally. Our internal procurement organization manages billions of dollars annually in indirect spending in the Americas, Europe and Asia-Pacific. We also have a complete procure-to-pay solution, and deep sourcing expertise across a wide range of categories and services.

Armed with best-in-class supply chain processes and business process delivery infrastructure, our services offer:

- Category expertise
- Organization change management skills
- Existing vendor relationships and a competitive catalog
- Economies of scale/global delivery capability
- International contracting expertise

## Key benefits:

- Improves service levels and business partnership
- Improves operational efficiencies
- Increases spend visibility
- Improves demand management
- Drives transformation
- Enables access to global supplier base

**Our procurement engine offers:**

- A full suite of procure-to-pay services
- Industry-leading best procurement practices
- International contracting expertise
- Global vendor partner relationships
- Expertise in a wide range of purchasing categories
- Integrated category strategy framework, along with a variety of solution accelerators
- Access to global supplier base
